**DIGITAL
ADDED VALUE
IN CLASSIC
BALL PENS.**

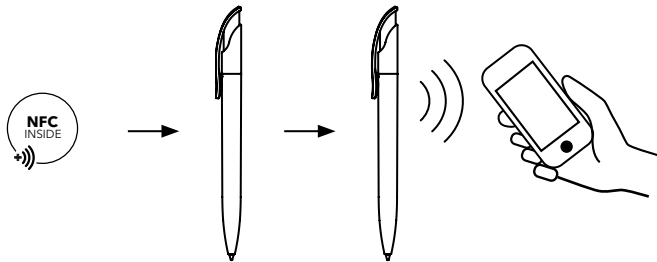

Get your personal pen with NFC tag now and impressively combine haptic and digital advertising.

senator[®]
Made in Germany. Since 1920.

SENATOR CONNECTED PENS

Use the senator® Challenger now with an integrated NFC tag and transmit additional digital information.

As soon as you hold an NFC-enabled smartphone to the pre-programmed NFC tag, you will see the additional information linked to the chip – individually tailored to your wishes, always up to date and alterable any time.

With all important contact information including a call function

Videos

To your product and service range

Special Offers

With special discount code to redeem with the ball pen

Sales documents

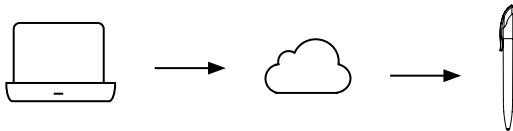

Price lists, catalogues, flyers always available

NEW

The senator® Connected Pen Package

- We equip your Challenger with a clever NFC tag.
- When you place your order, you will receive a registration code for setting a link of your choice.
- The ball pen is thus already coded on delivery and immediately ready for use and only you can adjust the link online.
- The printed NFC scan logo informs the user of the digital function.
- You can change the link at any time via your individual login. Today, the NFC chip still refers to your homepage, for example, and tomorrow to a new promotion.

The clever cloud solution allows changing content. This means that the product will always be up-to-date, even after long periods of use.

CHOICE OF MODELS

Choose your favourite Challenger model and add the "Connected Pen" function.
